Fabric ventilation ducts

**Fast & Easy
Fabric Ducts**

Save Time & Money with Zip-a-Duct

Zip-a-Duct is a fabric air dispersion system made from standardized components. Our systems are easy to design, fast to install, and less expensive than metal!

And, Zip-a-Duct fabric ducts install 40-70% faster than metal ducts with no special tools or skilled labor required.

FABRIC DUCTING PROVIDES A VARIETY OF ADVANTAGES OVER METAL DUCT:

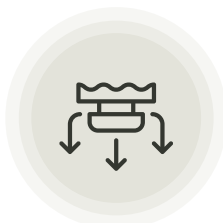

NO SEALING

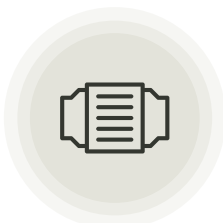

NO DIFFUSERS

NO PAINTING

NO BALANCING

NO INSULATION

Fast, Easy, and Energy-Saving Fabric Air Dispersion

FAST LEAD TIMES

Systems are delivered to the job site in 21 days or less

NO CONDENSATION

Permeable fabrics keep the duct dry

DRAFT-FREE

Precise airflow for occupant comfort

ENERGY EFFICIENT

Precise airflow and low-pressure loss can save up to 40% on your energy bill

UL CLASSIFIED

Fabrics classified by UL, the standard in safety

Standard components that can be combined in endless ways!

DURABLE, WASHABLE FABRICS

- Permeable
- Non-Permeable
- Anti-Microbial
- Diameter Range 8"-48"

SUSPENSIONS FOR ANY APPLICATION

- Cable
- Rail

DUCT PROFILES THAT FIT ANYWHERE

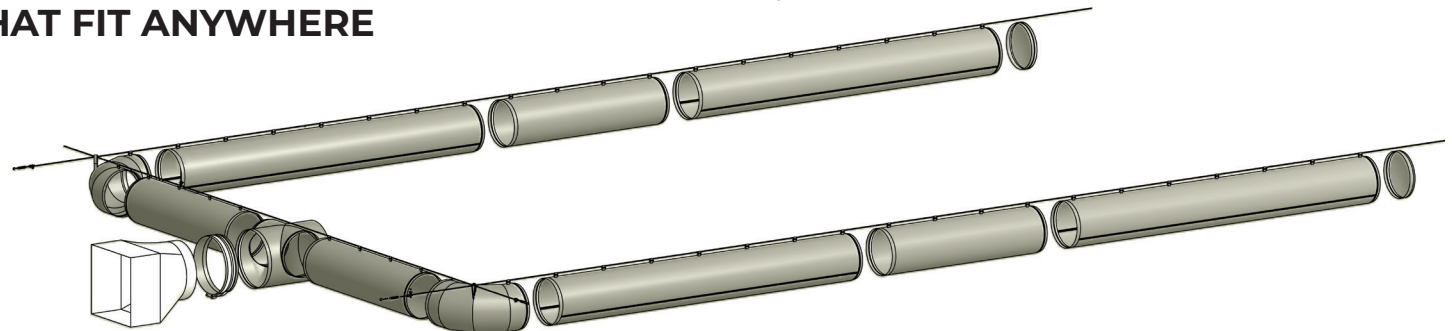

- Round
- Half Round

FLOW MODELS FOR PRECISE AIRFLOW

- MicroFlow
- PerfoFlow
- OriFlow
- SonicFlow

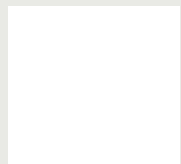

SHAPE RETENTION OPTIONS FOR A COMPLETE LOOK

- All-in-One
- Internal Hoops

9 STANDARD COLORS

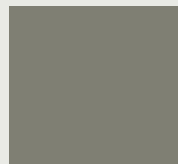

3000 White

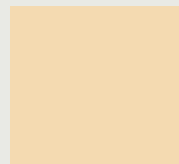

3001 Blue

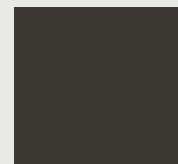

3002 Orange

3003 Dark
Gray

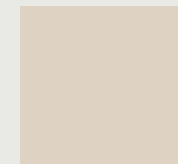

3008 Tan/
Beige

3004 Black

3005 Red

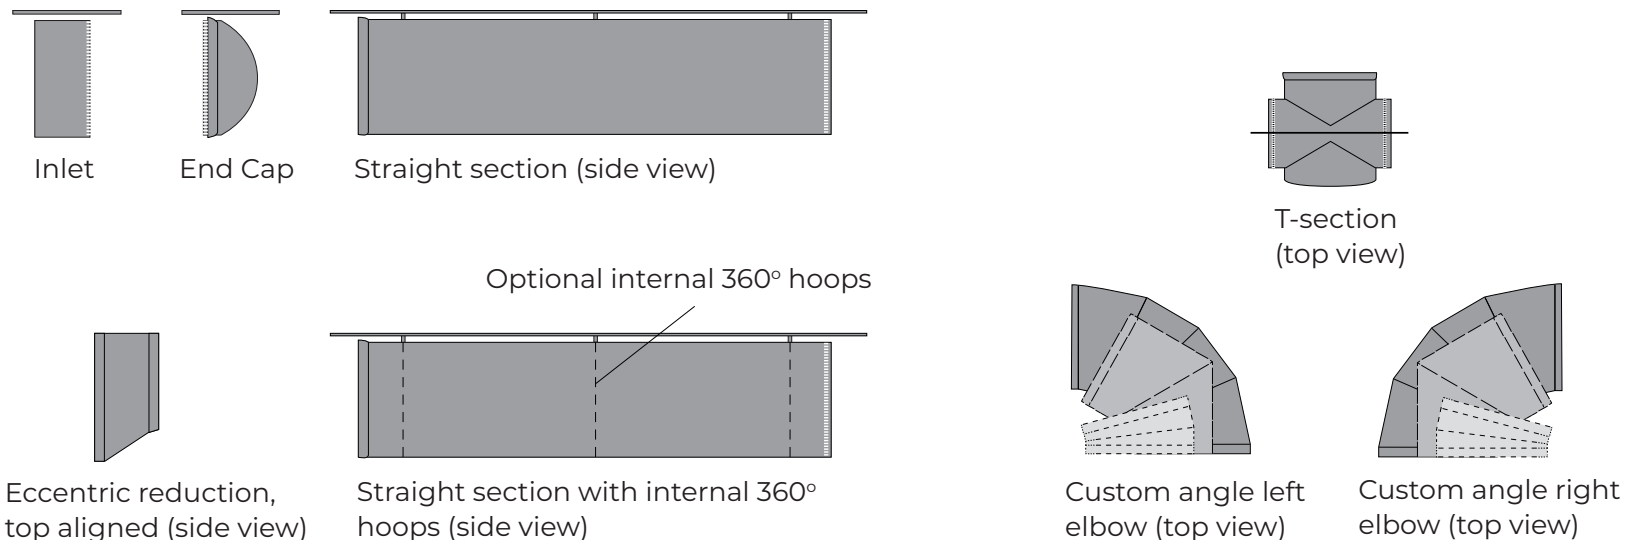

3006 Light
Gray

3007 Green

Zip-a-Duct installs in a fraction of time compared to sheet metal

The lightweight air dispersion system (less than 2 lbs. per linear foot) does not require on-site attenuation, balancing, insulation, or painting. The cable or rail suspension system can be installed using tools available anywhere – a screwdriver, drill, and handsaw. Once the suspension is mounted, hanging the ductwork is as easy as sliding a shower curtain.

Use in any open ceiling application
